FOR IMMEDIATE RELEASE

Precision Laboratories Introduces GundownMAX™

Northbrook, IL, May 21, 2002 – James D. Reiss, director, Ag Business Unit, Precision Laboratories, today announced that the company has introduced GundownMAX, a unique defoaming agent that will not plug sprayer screens and nozzles like ordinary defoamers could when used with Roundup WeatherMAX™.

Designed specifically in response to customer feedback, Gundown MAX is formulated to be 50% stronger than ordinary defoamers so that it works more quickly and the usage rates are substantially reduced. In addition, GundownMAX can be used as either a defoamer or an antifoam on tank mixes.

For more information please contact the Precision Laboratories customer service team by calling (800) 323-8351, by e-mail at info@precisionlab.com or visit the company's website at www.precisionlab.com.

Precision Laboratories' Ag Business Unit, based in Northbrook, Illinois is a manufacturer and marketer of innovative, value-added agricultural adjuvant technologies. The company's best of class product lines include a wide range of adjuvants, seed coating polymers, colorants, and marking foam technologies.
