Precision Labs Upgrades True Blue Packaging

Northbrook, IL, July 18, 2002 -- Rick Wohlner, president, Precision Laboratories today announced the availability of its True Blue™ Lake & Pond Dye product in a new packaging format that is designed to make application easier and to prevent spillage. The newly designed SoluPaks are protected by a waterproof, foil-lined overpack that also helps to prevent staining while handling.

The True Blue products are non-toxic, water soluble dyes that are formulated to reduce sunlight penetration and to give a natural blue appearance to lakes, ponds and fountains.

Precision Laboratories, based in Northbrook, Illinois is a manufacturer and marketer of value-added specialty chemicals used to improve the performance and playability of turf, by enhancing growing conditions, pesticide efficacy and turfgrass quality. The company's best of class product lines include soil conditioners, adjuvants, additives, spray pattern indicators and permanent turf colorants.
