

SIGNAL™ GREEN

GREEN SPRAY PATTERN INDICATOR

CAUTION

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Before using this product, read the entire label, including the conditions of sale.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers of this chemical must wear long-sleeved shirts, pants, shoes and socks, rubber or PVC gloves, splash goggles or face shield. Consult the MSDS for further information.

STATEMENT OF PRACTICAL TREATMENT

- If Swallowed:** Do not induce vomiting unless directed to do so by medical personnel. Never give fluids or force vomiting if the person is unconscious, is having convulsions or has no gag reflex. If large quantities are swallowed, seek emergency medical help immediately.
- If Inhaled:** Immediately move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration. Seek emergency medical help immediately.
- If in Eyes:** Check for and remove contact lenses. Immediately flush eyes with water for at least 15 minutes while holding eyelids open. Seek immediate medical attention as a precaution.
- If on Skin:** Remove contaminated clothing. Wash affected area with plenty of soap and water. Seek medical attention as a precaution.

GENERAL INFORMATION

SIGNAL GREEN is a temporary, green spray pattern indicator formulated to further reduce awareness of pesticide applications compared to ordinary blue spray colorants by providing a temporary green tint to treated areas. SIGNAL GREEN eliminates waste due to overlapping and skipping, while it indicates drift and improper application.

SIGNAL GREEN easily dissipates, is nontoxic and totally compatible with water-soluble solutions. SIGNAL GREEN is designed both for agricultural and non-crop uses. It is ideal for golf courses, parks, cemeteries, athletic fields, lawn care maintenance, utility rights-of-way, forestry and any large turf or grass areas.

DIRECTIONS FOR USE

FOR USE WITH PESTICIDES REGISTERED FOR AQUATICS, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, RIGHTS-OF-WAY, TURFGRASS AND OTHER APPROPRIATE USES.

USE RATES

Broadcast and Handgun Applications: 32 – 64 ounces per 100 gallons (1000 – 2000 ml per 400 liters) of spray solution.

Back-Pack Sprayers: 2 – 4 ounces per 3 gallons (50 – 100 ml per 10 liters) of spray solution.

Turf or weed color, height, and individual water conditions, such as hardness, pH, iron content, etc., may dictate variations from the above suggested rates. Sight adjustment is recommended. Test for required concentration before use and adjust as needed.

MIXING:

In the absence of specific mixing recommendations by the basic pesticide manufacturer, use the following mixing procedure:

1. Fill spray tank $\frac{1}{2}$ full of desired water volume.
2. While agitating, add the appropriate amount of SIGNAL GREEN for the entire desired finished spray volume.
3. Continue filling the spray tank to $\frac{3}{4}$ of desired level.
4. Begin adding pesticides in the following order:
 - a. Dry flowables and dispersible granule pesticides.
 - b. Flowables.
 - c. Water-soluble pesticides.
 - d. Emulsifiable concentrate pesticides.
5. Add additional adjuvants, if required.
6. Continue agitation and finish filling spray tank to desired level.

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature and shake before use. Store in original container only and do not reuse empty container. Rinse container thoroughly and dispose of the container in accordance with federal, state and local regulations.

CONDITIONS OF SALE

Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, Inc. warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
