**FOR IMMEDIATE RELEASE**

## **Precision Laboratories, Syngenta Sign Distribution Agreement**

Waukegan, IL, March 1, 2004 -- Terry Culp, Vice President, today announced that Precision Laboratories has been granted additional distribution rights for Syngenta's commercial seed treatment, fungicides and insecticides, east of the Rocky Mountains. The agreement represents an expansion of a previous distribution agreement and includes marketing rights for Syngenta's new seed treatment insecticide, Cruiser™.

"We are delighted with this agreement with Syngenta to expand our distribution relationship to include additional geography," said Culp. "This will allow Precision to offer a complete line of insecticides, fungicides, colorants and polymers to our existing and growing base of commercial seed treatment customers. As a result of this agreement, we will be adding to our seed treatment sales team in order to ensure continued high levels of customer service."

Precision Laboratories, Inc. is a manufacturer and marketer of best-of-class adjuvants, application enhancement technologies and seed protection systems that include fungicides, colorants, coatings and inoculants.
