DIRECT™
DRIFT RETARDANT/DEPOSITION AID

PRINCIPAL FUNCTIONING AGENTS:
Polyvinyl Polymer (Polyacrylamide) ........................................ 30%
Inert Ingredients (Formulating Aid) ......................................... 70%
TOTAL.................................................................................. 100%
All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN
WARNING

PRECAUTIONARY STATEMENTS
Causes skin irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this product should wear protective eyewear, long-sleeved shirt, long pants, socks, shoes, barrier laminate, neoprene rubber, nitrile rubber or Viton® gloves. Consult the SDS for further information.

FIRST AID
If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
If On Skin: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.
If Inhaled: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION
DIRECT Drift Retardant and Deposition Aid reduces drift risk and maximizes pesticide performance by binding Ultra Small Spray Particles together into larger droplets which are more capable of hitting their intended target. DIRECT's refined use rates and low "phase out" formulation make it the easiest to use liquid drift retardant.

DIRECT will retard, but cannot totally eliminate, drift hazards due to variations in pesticide usage, application conditions and techniques, as well as sensitive vegetation near the target application area. Minimizing spray drift is the responsibility of the applicator.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING. FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, AQUATIC, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, ORNAMENTAL, RIGHTS-OF-WAY, TURF AND OTHER APPROPRIATE USES. The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using DIRECT, the applicator or crops advisor must have experience with the pesticide combination, including DIRECT, or must have conducted a phytotoxicity test. Excessive use rates of DIRECT will cause a thickened or stringy solution. Dilution with water and at least 1 hour of continuous recirculation will help correct this condition.

USE RATES
As a general guideline, use 1-4 ounces per 100 gallons of spray solution. Always start with the lower dosage and increase as needed to address specific spray conditions. If spray fines are not eliminated, add additional quantities of DIRECT in 1-ounce increments until desired results are achieved.

MIXING
Always conduct a jar test first, to ensure compatibility. SHAKE WELL BEFORE USING: See special mixing instruction for tank mixes which include Roundup® Ultra and/or wettable powder tank mixes.

General use tank mixes
1. Complete normal mixing and filling procedures.
2. Add DIRECT to the spray solution last at the point of greatest agitation.
3. Continue agitation for at least 3 minutes before spraying and maintain agitation during application.

Wettable powder tank mixes
1. Fill tank one-half full of desired water volume.
2. Add wettable powders
3. Add DIRECT to the spray solution at the point of greatest agitation.
4. Under agitation, add other pesticides and adjuvants in the appropriate order.

Roundup Ultra tank mixes
1. Fill tank one-half full of desired water volume.
2. Add DIRECT to the spray solution at the point of greatest agitation.
3. Under agitation, add other pesticides and adjuvants in the appropriate order.
4. Add Roundup Ultra last.

STORAGE AND DISPOSAL
Store in original container only. If product freezes, bring to room temperature and mix thoroughly before use. Prevent water from being introduced into the contents of this package. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE
Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling, Precision Laboratories, LLC, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Undesirable factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
