INCIDE-OUT™
Spray Tank Cleaner

PRINCIPAL FUNCTIONING AGENTS
Organic Amine, Inorganic Hydroxides, Surfactants and Formulation Aids .................................................. 100%
All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN
DANGER / PELIGRO. CORROSIVE.
Si usted no entiende la etiqueta, busque a alguien que sepa lo que la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS
May be corrosive to metals. Harmful if swallowed. Causes severe skin burns and serious eye damage. If medical advice is needed, have product container or label at hand. Read label before use. Keep only in original packaging. Do not breathe mist or spray. Wash protective equipment and work clothes thoroughly after handling. Do not eat, drink or smoke when using this product. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS. Store locked up. Store in a corrosion resistant container with a resistant inner liner. Dispose of contents/container to disposal plant in accordance with federal, state and local regulations.

This product is not corrosive to most sprayer tanks and equipment; however, it will remove large amounts of scale and rust that could plug screens and nozzles or expose hidden leaks. Do not use INCIDE-OUT on nonferrous metals, such as soft aluminum, copper and brass.

Due to existing variables in equipment and component type, construction age and cleanout technique, the use of INCIDE-OUT does not guarantee removal or neutralization of all residues. Therefore, thorough sprayer cleanout is the responsibility of the applicator. Always conduct a test to verify acceptable residue removal.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators or other handlers of this chemical should wear coveralls, long-sleeved shirt, protective apron, boots, chemically impervious gloves, splash-proof chemical safety goggles and full-face shield.

Once product has been mixed with the recommended amount of water, applicators or other handlers should wear protective eyewear, chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. Consult the SDS for further information.

FIRST AID
If Swallowed:
Call a POISON CENTER/doctor or Chemtrec if person feels unwell. Do not induce vomiting. Rinse mouth. Drink egg whites, gelatin solution or, if these are not available, large quantities of water. Avoid alcohol.

If In Eyes:
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor or Chemtrec.

If On Skin:
Take off immediately all contaminated clothing. Rinse skin with water [or shower]. Wash with plenty of water for 15 minutes. If skin irritation occurs: Get medical advice or attention. Treat Symptomatically. Wash contaminated clothing before reuse.

If Inhaled:
Remove person to fresh air and keep comfortable for breathing.

GENERAL INFORMATION
INCIDE-OUT is a DUPONT™-approved liquid spray tank cleaner, formulated to bond pesticide residues to the rinse water solution for complete purging. Because rinse may be sprayed on growing crops it is important to use a spray tank cleaner that is approved for use on growing crops. INCIDE-OUT is approved for this use.

DIRECTIONS FOR USE
After cleaning procedures have been completed, fill tank with clean water and conduct a rinsate test on the water in the tank. Rinsate tests can be done through laboratory analysis or bioassay. For bioassay testing, apply rinsate to sensitive vegetation and observe treated plant for at least 48 hours. If damage occurs, repeat cleaning process and testing procedures. If no damage is observed, dispose of rinsate in an appropriate manner and resume spraying operations. Do not use the sprayer during the 48-hour observation period. All internal and external rinsate must be contained and disposed of according to state, local and federal regulations.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, AQUATIC, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, ORNAMENTAL RIGHTS-OF-WAY, TURF, AND OTHER APPROPRIATE USES.

USE RATES
Use one quart per 100 gallons of clean water.

MIXING
1. Clean all tanks on a state-approved loading pad so rinsate can be collected and mixed into spray solution or into a dedicated rinsate tank. In-field cleanout, go to step 3.
2. Thoroughly clean exterior of tank to remove dirt and chemical residue.
3. Drain the spray tank as completely as possible. Loosen any visible deposits.
4. Add 50–100 gallons of clean water to the tank and add appropriate amount of INCIDE-OUT.
5. Remove nozzles, screen and strainers and thoroughly clean separately in a bucket, using INCIDE-OUT as the cleaning agent. Rinse with clean water.
6. Ensure agitation and carefully clean the interior of the tank using a 360° rotation nozzle or pressure sprayer. Agitate and circulate for 15 minutes.
7. Flush the cleaning solution through the boom, hoses and nozzles until tank is empty.
8. Drain lines and pump. Dispose of rinsate according to product label and local, state and federal regulations.
9. Add 50–100 gallons of clean water to the tank. Recirculate through entire system. Flush solution through the boom, hoses and nozzles until tank is empty.
10. Drain the tank, lines and pump completely. Remove excess rinsate with a pump or dedicated wet/dry vacuum.
11. Test rinse solution for pesticide residue. If residue free, dispose of according to local, state and federal regulations. If not, repeat step 8 above.

STORAGE AND DISPOSAL
Noncombustible. Store in original container only. Protect product from freezing. If product freezes, warm to room temperature and agitate before use. Prevent water from being introduced into the contents of this package. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE
Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label.

Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results to be obtained from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unknown factors beyond Precision’s control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
