

# CASCADE™ TRE

TRUSTED CASCADE™ PERFORMANCE WITH  
SAFETY & FLEXIBILITY

The **Cascade™** brand has been a staple in turfgrass managers' maintenance programs for years. It has a demonstrated history of effectively reducing localized dry spots, improving irrigation efficiency, and producing a superior playing surface. However, immediate irrigation was required to achieve optimal performance and avoid turf injury.

**Cascade™ Tre**, the next innovation in the **Cascade™** brand, was built to provide the same trusted **Cascade™** performance, with the flexibility to delay watering after application without concern of turf injury.

**Cascade™ Tre** applied at 4-times the label rate with 24-hour delayed irrigation.

**Cascade™ Tre** treated creeping bentgrass 24-hr later with no phytotoxicity.

In **PROVE™** demos across the country, **Cascade™ Tre** was applied at 4-times the label rate with delayed watering to demonstrate consistent turf safety.

From 24-hour delays on creeping bentgrass greens in the north to 12-hour delays on bermudagrass greens in the south, **Cascade™ Tre** displayed consistent turf safety.

**Cascade™ Tre** provides turf managers a soil surfactant with proven turf safety, versatility, and trusted **Cascade™** performance.

# CASCADE™ TRE

## TRUSTED CASCADE™ PERFORMANCE WITH SAFETY & FLEXIBILITY

Time and flexibility are essential; **Cascade™ Tre** was developed with that in mind. Research conducted at the University of Arkansas subjected **Cascade™ Tre** to delayed irrigation following application and reduced water inputs throughout the season to demonstrate superior performance under stress.

### Cascade™ Tre ...

- Mitigated localized dry spot by **34%** throughout the season compared to **Cascade™ Plus**
- Optimizes season-long water use efficiency to maximize water inputs
- Utilizes variable use rates to provide you with more flexibility
- Delivers superior performance and turfgrass safety even without immediate watering after application

### September 20th

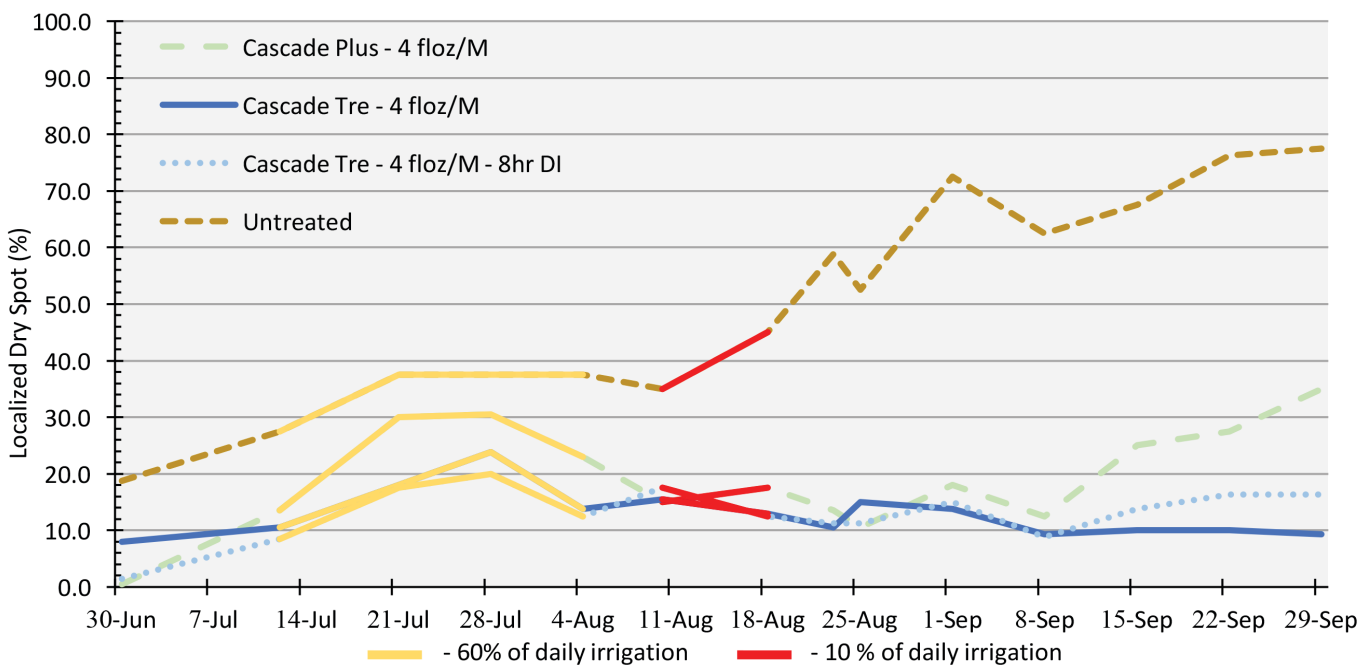

Monthly **Cascade™ Tre** applications at 4 fl oz/M with delayed irrigation

Monthly **Cascade™ Plus** applications at 4 fl oz/M with delayed irrigation

No Soil Surfactant 4-months under water stress
