

DERIVA™

WATER CONDITIONING AGENT

DERIVA is a water conditioning agent that protects the performance potential of glyphosate, dicamba and 2,4-D from antagonistic metal ions found in hard water and leaf tissue.

WHAT MAKES DERIVA BETTER:

- Provides AMS-replacement technology to block antagonistic hard water ions that reduce herbicide performance
- Further reduces dicamba volatility
- Complements a wide range of drift-reduction nozzles

USE RATES:

- 0.5–1% v/v (2–4 quarts) of DERIVA per 100 gallons of spray solution

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gallon minibulk

**LISTED ON ENLISTTANKMIX.COM FOR USE WITH ENLIST™ ONE AND ENLIST™ DUO**

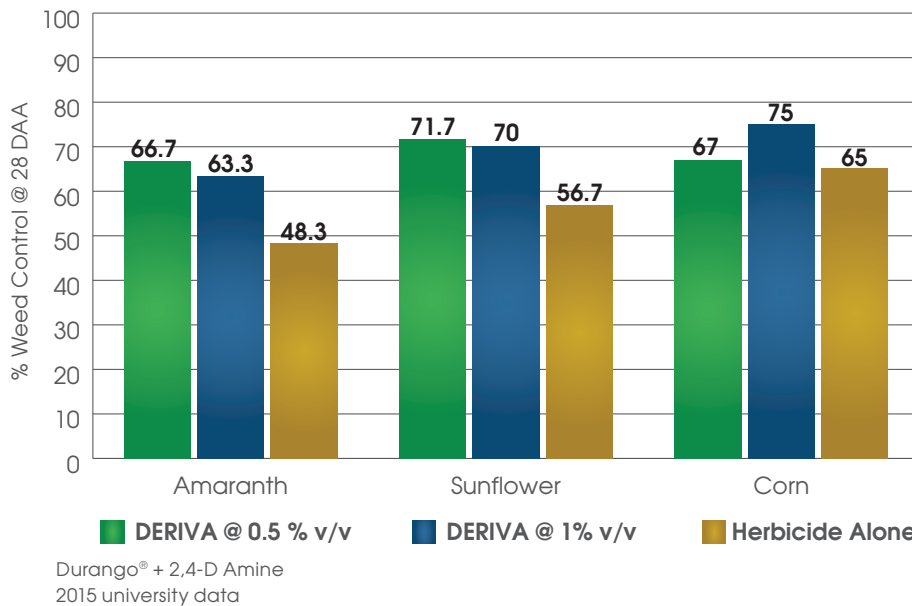

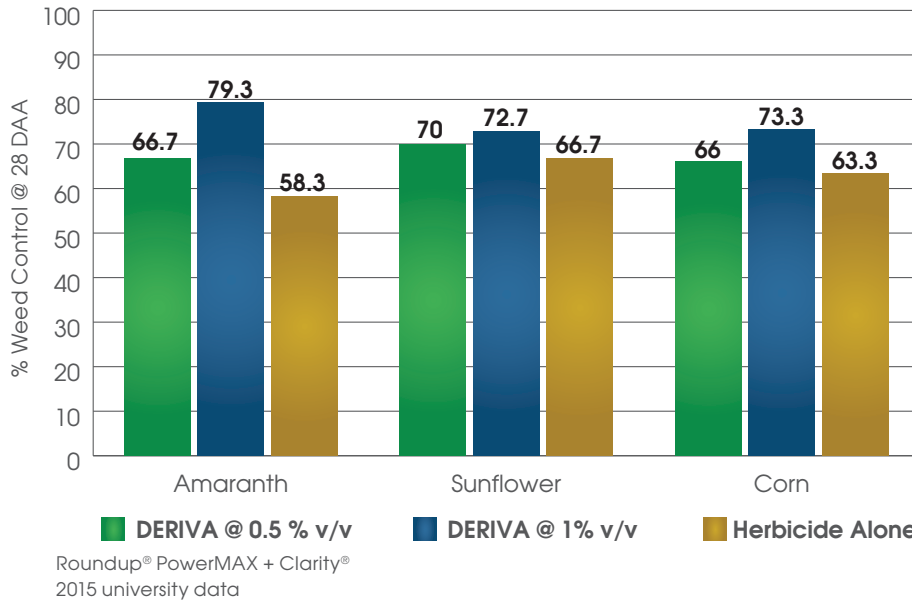

Enlist products may only be tank-mixed with products that have been tested and found not to adversely affect the spray drift properties.

A list of those products may be found at EnlistTankmix.com.
