

PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of adhesive and nutrients.

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

FIRST AID

If Swallowed: It is recommended to induce vomiting if a great volume has been swallowed (>500-mL).

If In Eyes: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

If Inhaled: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

PBX ensures live bacteria will be in close proximity to emerging root hairs to promote rapid infection of the root and earlier root nodulation. PBX is an essential source of moisture to maintain a seed surface humidity that is critical to bacteria survival. As a binding and extending agent, PBX tightly adheres bacteria to the seed surface and provides a nutrient food source to extend the life of the bacteria from the time of application until planting.

SEQUENTIAL APPLICATION

FOR USE WITH OR WITHOUT SEED TREATMENT FUNGICIDES

- (If not using seed treatment fungicides, skip to step 3.) Treat seed with desired seed treatment fungicides at label rate.
- Allow seed treatment fungicide to begin drying on the seed before applying LAUNCHER and PBX.
- In a tank designed for mixing seed treatments add the following components based on the amount of seed to be treated.

Product in order of addition	To Treat 1,000 lbs. of seed	To Treat 5,000 lbs. of seed
PBX	8.0 fl. oz	40 fl. oz.
LAUNCHER	34 fl. oz	170 fl. oz.
Ensure that above mixture is uniformed and homogeneous		
Total Batch Size	42 fl. oz.	210 fl. oz.
Application Rate per CWT	4.2 fl. oz.	4.2 fl. oz.

- Apply to seed at the indicated rate to obtain a uniform distribution on the seed.
- Apply away from direct sunlight.
- Plant treated seed as soon as possible.

SIMULTANEOUS APPLICATION

FOR USE WITH SEED TREATMENT FUNGICIDES

- In a tank designed for mixing seed treatments add the following components based on the amount of seed to be treated.

Product in order of addition	To Treat 1,000 lbs. of seed	To Treat 5,000 lbs. of seed
PBX	8.0 fl. oz	40 fl. oz.
LAUNCHER	34 fl. oz	170 fl. oz.
Ensure that above mixture is uniformed and homogeneous		
Fungicides*	As per manufacturer's label	
Total Batch Size	42 fl. oz.	210 fl. oz.
Application Rate per CWT**	4.2 fl. oz.	4.2 fl. oz.

- Ensure that above mixture is uniform and homogenous.
- Apply to seed at the indicated rate to obtain a uniform distribution on the seed.
- Apply away from direct sunlight.
- Plant treated seed as soon as possible.

*ALWAYS ADD FUNGICIDES LAST TO TANK MIX. REFER TO THE FUNGICIDE LABEL FOR PROPER USE RATES.

**DOES NOT INCLUDE THE ADDITIONAL VOLUME OF FUNGICIDES. ADJUST RATE ACCORDINGLY.

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Rinse container thoroughly, disposing of rinsate and the containers in accordance with federal, state and local regulations.

CONDITIONS OF SALE

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
