

# PRISM™

## AZURE SEED COLORANT

Approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN

### PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

### PERSONAL PROTECTION EQUIPMENT

Applicators or other handlers of this product should wear: protective eyewear, long-sleeved shirt, long pants, socks, shoes, and chemical resistant gloves. Consult the SDS for further information.

### FIRST AID

**If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

**If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

**If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

**If On Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

### GENERAL INFORMATION

PRISM is a nonacidic, water-soluble seed colorant formulated to aid in the visual identification of conditioned seed. PRISM can be applied with seed treatment fungicides, insecticides and protective polymers through commercial seed-treating equipment.

### DIRECTIONS FOR USE

FOR USE ON ROW CROP, SMALL GRAIN, LEGUME, GRASS AND VEGETABLE SEED VARIETIES.

### USE RATES

PRISM Colorant Required per 100 lb. (45 kg) of Seed	
<b>Small Dark Seed</b> Canola	10.0 – 14.0 fl. oz. 295 – 413 ml
<b>Small Light Seed</b> Alfalfa, Turfgrasses	3.0 – 6.0 fl. oz. 88 – 176 ml
<b>Large Dark Seed</b> Sunflower	3.0 – 6.0 fl. oz. 88 – 176 ml
<b>Large Light Seed</b> Corn, Soybeans, Wheat, Sorghum	0.2 – 0.5 fl. oz. 6 – 15 ml

Use the above rates as guidelines only. Rates may be adjusted to achieve desired color intensity. Higher use rates will provide more uniform and vibrant color.

### SHAKE WELL BEFORE USING.

### MIXING

In the absence of specific mixing instructions provided by the chemical manufacturer, add seed treatment ingredients in the following order:

1. Water. Fill mix tank one-half to two-thirds full of the desired total slurry water volume. Maintain constant agitation throughout the entire mixing and treating process.
2. Wettable powders
3. Dry flowables
4. Liquid flowables
5. PRISM™ Seed Colorant
6. Emulsifiable concentrates
7. Water-soluble powders or liquids
8. Add recommended amount of seed coating polymer.
9. Finish filling slurry tank to desired water volume level
10. Agitate thoroughly for approximately ten minutes to prevent "candy striping".

### DIRECTIONS FOR MAINTENANCE

It is recommended that commercial seed-treating equipment be cleaned on a daily basis, by back flushing or other methods, to remove residues, which may interrupt equipment performance.

### STORAGE AND DISPOSAL

Protect product from freezing. Store in original container only and do not reuse empty container. Rinse container thoroughly and dispose of the container in accordance with federal, state and local regulations.

### CONDITIONS OF SALE

Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Manufacturer warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond the manufacturer's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.

Treatment of highly mechanically damaged seed, or seed of known low vigor and poor quality, except for the purposes of curative control of existing disease or insect pest, may result in reduced germination and/or reduction of seed and seedling vigor. Treat and conduct germination tests on a small portion of seed before committing the total seed lot to a selected chemical treatment. Due to seed quality conditions beyond the control of the manufacturer, no claims are made to guarantee germination of carryover seed.
