

# WUXAL® TERIOS Zn<sup>+</sup>

## TECHNICAL BULLETIN

### GIVE YOUR CORN THE RIGHT START!

WUXAL Terios Zn<sup>+</sup> seed-applied nutrition for corn is immediately available to the seedling, regardless of soil moisture and temperature conditions. It contains fully-chelated micronutrients to ensure availability to the plant.

### BENEFITS:

- Improved seedling stress resistance
- Enhanced seedling health & vigor
- Expedited root development
- Uniformity of seedling emergence
- Optimization of seeding rates
- Increased yield

### WUXAL TERIOS Zn<sup>+</sup> GUARANTEED ANALYSIS: 5-0-0

Total Nitrogen (N) .....	5.000%
3.50% Ammoniacal Nitrogen	
1.50% Urea Nitrogen	
Zinc (Zn) .....	8.000%
4.0% Chelated Zinc (Zn)	
4.0% Zinc Oxide (Zn)	

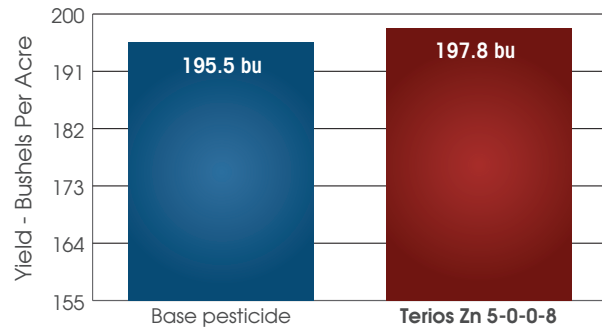

**PRODUCT USE RATE:** Corn: 2 fl oz/cwt

# WUXAL® TERIOS Zn<sup>+</sup>

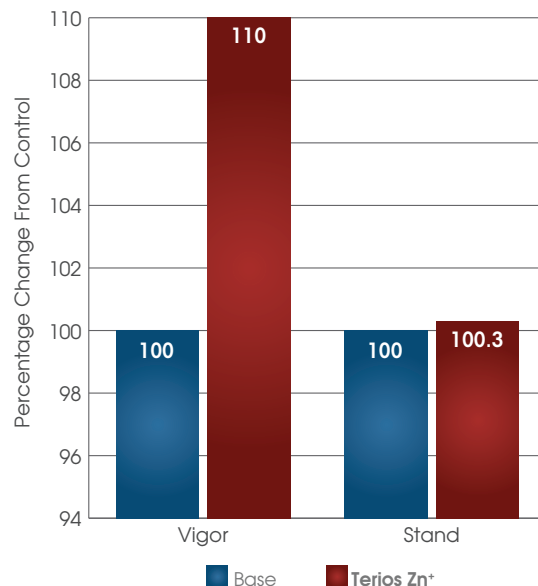

## RESEARCH

**Two year Terios Zn+ Summary Yield Results, Corn - 2017, 2018 WI, IL, IA**

**Two Year Terios Field Performance, Corn - 2017, 2018 WI, IL, IA**

### CONTINUOUS EVALUATIONS ENSURE...

- Low dust-off from in-slurry and overtreat applications
- Seed flow in combination with multiple active ingredients
- Plantability with vacuum and finger pickup planters
- Customer-specific testing capabilities

Wuxal is a registered trademark and manufacturing process under license of Aglukon Spezialdünger GmbH & Co. KG, Düsseldorf, Germany.

Specialized chemistries that enhance plants, seeds, soil and water.
