

Wuxal[®] Terios Zn⁺

Seed Treatment

PRECISION
LABORATORIES

GUARANTEED ANALYSIS: 5-0-0	
Total Nitrogen (N)	5.000%
3.50% Ammoniacal Nitrogen	
1.50% Urea Nitrogen	
Zinc (Zn)	8.000%
4.0% Chelated Zinc (Zn)	
4.0% Zinc Oxide (Zn)	
DERIVED FROM:	
Urea, Ammonia Solution, Zinc Oxide, Zinc EDTA.	
1 U.S. Gallon Net Weight 11.43 lbs.	Effective
pH: 6.2	10/1/17

**KEEP OUT OF REACH OF CHILDREN
WARNING**

PRECAUTIONARY STATEMENTS

Causes skin and eye irritation. Toxic to aquatic life with long lasting effects. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Avoid release to the environment. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS. Dispose of contents/container to disposal plant in accordance with federal, state and local regulations.

FIRST AID

- If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
- If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- If On Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.
- If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

Seed applied nutrients can be an effective remedy for diagnosed plant deficiencies of secondary nutrients and micronutrients, but may cause plant damage if applied at more than recommended rates or concentrations. Use of this product is recommended only as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants.

USE DIRECTIONS FOR SEED TREATMENT

SHAKE BEFORE USE. Wuxal Terios Zn⁺ seed treatment is an easy to use formulation which can be applied directly to seed through most equipment designed to apply liquid, flowable or slurry seed treatment products to seed. For best application results, the product should be diluted with 1 fl. oz. of water per 1 fl. oz. of product. Diluted product should be agitated before and during application. Do not allow diluted product to stand for long periods, e.g., overnight, without agitating thoroughly before continuing application.

Crop	Use Rate
Rice Seed, Dry	1.35 fl. oz./cwt
Wheat	1.35 fl. oz./cwt
Corn	2.0 fl. oz./cwt
Grain Sorghum (milo)	2.0 fl. oz./cwt
Cotton	2.0 fl. oz./cwt
Soybeans	1.0 fl. oz./cwt

MIXING

Wuxal Terios Zn⁺ should be applied separately from seed applied insecticides and fungicides. Use a 1 to 1 ratio of Zn⁺ and water in a separate slurry. When mixing Wuxal Terios Zn⁺ with other products, conduct a jar test to ensure compatibility.

STORAGE AND DISPOSAL

Store in original container between 41°F and 104°F away from direct sunlight. Temperature fluctuations and long term storage may cause reversible crystallization and phase separation. Neither condition will affect product efficacy if properly mixed prior to use. Do not reuse empty container. Dispose of the container in accordance with federal, state and local regulations.

Application Recommendations

When adding Wuxal Terios Zn⁺ to a seed treatment slurry containing seed applied active ingredients, use the standard rate of seed coating polymer recommended for the active ingredients in the tank mix slurry. For applications of Wuxal Terios Zn⁺ without other seed applied active ingredients, use of a seed coating polymer at standard use rates for the

polymer is recommended. When applying Wuxal Terios Zn⁺ to seed previously treated with seed applied actives (over-coating), use of a seed coating polymer at standard use rates for the polymer is recommended.

CONDITIONS OF SALE

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
