

Wuxal® Top K

Liquid Foliar Fertilizer

GUARANTEED ANALYSIS:

Total Nitrogen (N)	5.000%
1.000% Urea Nitrogen	
4.000% Nitrate Nitrogen	
Available Phosphate (P ₂ O ₅)	8.000%
Soluble Potash (K ₂ O)	12.000%
Boron (B)	0.020%
0.020% Water Soluble Boron (B)	
Copper (Cu)	0.050%
0.050% Chelated Copper (Cu)	
Iron (Fe)	0.100%
0.100% Chelated Iron (Fe)	
Manganese (Mn)	0.050%
0.050% Chelated Manganese (Mn)	
Molybdenum (Mo)	0.001%
0.001% Water Soluble Molybdenum (Mo)	
Zinc (Zn)	0.050%
0.050% Chelated Zinc (Zn)	

DERIVED FROM:

Phosphoric Acid, Potassium Nitrate, Potassium Hydroxide Solution, Urea, Ammonium Borate, Copper EDTA, Iron EDTA, Manganese EDTA, Sodium Molybdate, Zinc EDTA.

1 U.S. Gallon Net Weight 10.56 lbs.	Effective
pH: 6.5, Salt Index 25.0	2/29/12

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

CAUTION: This fertilizer is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants).

FIRST AID

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

If Inhaled: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

Wuxal Top K is a liquid fertilizer with a high macronutrient and a complete micronutrient content for crops with special potassium requirements and for crops grown at locations with potassium fixation in the soil. The high macro- and well-balanced micronutrient contents permit both preventive and curative applications to control specific deficiencies in agricultural and horticultural crops.

Foliar fertilization can be an effective remedy for diagnosed plant deficiencies of secondary nutrients and micronutrients, but may cause plant damage if applied at more than recommended rates or concentrations. Use of this product is recommended only as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants.

USE DIRECTIONS FOR FOLIAR FERTILIZATION:

SHAKE BEFORE USE. Use with sufficient water or tank mix partners to ensure thorough leaf coverage.

Crop	Timing	Use Rate
Cereals	4 applications during stem elongation	0.5–1.0 gal./acre
Potatoes	3–4 applications • 1 at stem development • 2–4 at 14-day intervals	0.5–1.0 gal./acre
Sugar beets	3–4 applications between 4-leaf stage and crop cover	0.5–1.0 gal./acre
Corn	3–4 applications during stem elongation	0.5–1.0 gal./acre
Soybeans	1 – 3 applications during R1 – R5 reproductive stages of development	0.5–1.0 gal./acre

Crop	Timing	Use Rate
Vegetables (field cropping)	3 applications: • 1 four weeks after planting or two weeks after transplanting • Remaining applications in 10–14 day intervals	0.5–1.0 gal./acre
Vegetables (greenhouse)	During seedling production and during the growth period as soil-applied and foliage-applied nutrition	0.2–0.4% by vol.
Strawberries	3–4 applications starting shortly before flowering and repeating in joint application with the botrytis sprays	0.5–1.0 gal./acre

MIXING: NOTICE

When tank mixing Wuxal Top K with other products, conduct a jar test to ensure compatibility. Fill the spray tank with 75% of the desired water volume. While the water is agitating, add tank mix ingredients in the following order: 1. Water-soluble packets, dry flowables and dispersible granules. 2. Flowables. 3. Emulsifiable concentrates. 4. Wuxal Top K. 5. Water-soluble pesticides. Continue agitation and finish filling spray tank to desired level.

STORAGE AND DISPOSAL

Store in original container between 41°F and 104°F away from direct sunlight. Frequent temperature fluctuations should be avoided. Do not

reuse empty container. Dispose of the container in accordance with federal, state and local regulations.

CONDITIONS OF SALE

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
