

ELIMINO™

ANTIFOAMING AGENT / DEFOAMING AGENT

Elimino™ is an OMRI listed antifoam and defoaming agent designed to effectively prevent or reduce foam formation in agricultural applications of crop protection and/or fertilizer products.

Elimino is effective over a broad pH range and can be added before or after foam formation has begun.

ELIMINO BENEFITS

- Faster defoaming means less product used and more money saved
- Flexible to use as either a powerful antifoam or a defoamer
- Convenient low-use rates

USE RATES

Use 1–10 ounces per 100 gallons of spray solution.

PACKAGING

12 x 1 quart containers

Elimino is a trademark of Precision Laboratories, LLC
