

SPEED™

 SURFACTANT FOR FOLIAR
 INSECTICIDES

SPEED™ is a low foaming, nonionic, siloxane surfactant specifically formulated to provide superior coverage of crop foliage and improved rainfastness when compared to ordinary nonionic surfactants and blended silicone surfactants.

SPEED's unique performance characteristics make it the preferred adjuvant for use with foliar applied insecticides.

SPEED DELIVERS MORE PROFIT:

- Protects your insecticide investment from being washed away by untimely rainfall.
- Maximizes coverage of crop foliage so you maximize your opportunity for higher yields and profits.
- Easy to use, low use rate of just 12 ounces per 100 gallons of spray solution.
- Excellent crop safety for peace-of-mind.

USE RATES:

- 0.0.1-0.125% v/v or 1-1.5 fl oz/acre of spray solution

PACKAGING:

- 4 x 1 gallons per case
