

WANT TO MINIMIZE DRIFT AND MAXIMIZE PERFORMANCE?

USE BORDER™ XTRA 8L

The technology in BORDER XTRA 8L provides

33%

better droplet retention on the leaf surface than a polyacrylamide-based drift reduction agent.

BORDER XTRA 8L ties-up hard water ions and maximizes uptake on hard-to-control nitrogen responsive weed species.

BORDER XTRA 8L provides

8.5 LBS

of actual ammonium sulfate

The **CPDA Certification**

program ensures product quality and performance potential.
