

# INTACT™ PRO

*DRIFT CONTROL & FOLIAR RETENTION  
AGENT AND DEPOSITION AID*

INTACT™ PRO is a concentrated stand-alone drift reduction and deposition aid technology. It is pump-shear resistant and enhances spray droplet retention on target leaf surfaces.

## **FEATURES:**

- High-load HPG formula with lower use rates
- Advanced spray droplet management technology
- Maximizes large-droplet retention, coverage and drift control for better herbicide uptake
- Complements a wide range of nozzles to maximize drift control

## **USE RATES:**

- General Use: 1 - 3 pints per 100 gallons of solution or 0.125 -0.375% v/v.
- XtendiMAX®: 3 pints per 100 gallons of solution or 0.375% v/v.
- Engenia®: 2 pints per 100 gallons of solution or 0.25% v/v.

## **PACKAGING:**

- 2 x 2.5 gallons per case
- 275 gallon minibulk
