

PERSIST® ADVANCED

SILOXANE MAXIMIZED MSO

PERSIST® ADVANCED is a low-use-rate, methylated seed oil and silicone surfactant blend that provides maximum leaf surface coverage and penetration compared to ordinary silicone surfactant blends. The high quality MSO penetrates the waxy cuticles on the leaves of weeds, while the silicone surfactant ensures coverage of the leaf surface.

WHAT MAKES IT BETTER:

- Improved performance from advanced surfactant system
- Low use rates for easy handling
- Highly compatible for fewer tank mixing issues
- Superior leaf and cuticle coverage
- NPE/APE free

USE RATES:

- Ground: 0.125% v/v (1 pint per 100 gal. of spray solution) or 2–3 fl. oz. per acre
- Aerial: 2–3 fl. oz. per acre or up to 0.75% v/v (3 quarts per 100 gal.) in 1–5 gal. of water per acre

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gal minibulk container
