

TARAGON™ XTRA

WATER CONDITIONING AGENT, NONIONIC SURFACTANT,
HUMECTANT AND DRIFT CONTROL AGENT

TARAGON™ XTRA is a convenient premix of drift reduction technology and water conditioning agents that protects the performance potential of glyphosate and 2,4-D from antagonistic metal ions found in hard water and leaf tissue while further reducing risk of drift.

WHAT MAKES TARAGON XTRA BETTER:

- A complete, convenient premix designed for use with 2,4-D-based herbicides
- Unique AMS-replacement technology blocks antagonistic hard water ions that reduce herbicide performance
- Improves spray droplet deposition, coverage and drift control
- Compatible with a wide range of nozzles to maximize drift control
- Easy to handle with low use rate

USE RATES:

- 0.25–0.5% v/v (1–2 quarts) of TARAGON XTRA per 100 gallons of spray solution

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gallon minibulk
