

AVOR™

NONIONIC SURFACTANT, DRIFT CONTROL AGENT AND DEPOSITION AID

AVOR™ is an OMRI-listed, NPE/APE-free nonionic surfactant with built-in deposition aids and drift reduction technology.

AVOR reduces the risk of off-target movement while delivering more spray solution on-target and improving canopy penetration and leaf surface coverage.

Its unique high surfactant load formulation is designed to improve the effectiveness of crop protection products that require the use of a nonionic surfactant.

WHAT MAKES AVOR BETTER:

- Built-in drift reduction technology to reduce risk compared to ordinary surfactants that increase drift risk
- Approved for aquatic use
- Creates more “right-sized” spray droplets to increase canopy penetration
- NPE/APE-free to meet the needs of fruit and vegetable producers
- CPDA approved for added peace-of-mind

USE RATES:

- 0.125-0.5% v/v (1–4 pints per 100 gallons of spray solution).

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gallon minibulk
