

FIBA-ZORB® PLUS

HORTICULTURAL SUBSTRATE SURFACTANT

Now
available
in North
America

FIBA-ZORB® PLUS is an advanced horticultural substrate surfactant that optimizes hydration within growing media and maintains the proper air-to-water balance necessary for ideal plant growth. FIBA-ZORB PLUS is a liquid amendment that can be incorporated by ornamental growers to prevent or overcome the challenges associated with hydrophobicity. Its unique blend of active ingredients ensures quick, uniform wettability of plant growth media while minimizing the negative effects associated with over-saturation. FIBA-ZORB PLUS is also available in a granular formulation.

FEATURES AND BENEFITS:

- Longevity - in the bale & in the basket
- Faster initial wetting & subsequent rewetting
- Excellent crop safety
- Trusted by European growers
- Consistent performance across environmental conditions
- RHP certified

USE RATES

Apply FIBA-ZORB PLUS at a rate of 100 mL per cubic meter (2.6 ounces per cubic yard) of substrate if growing media is more hydrophilic (easy to wet).

Apply FIBA-ZORB PLUS at a rate of 300 mL per cubic meter (7.8 ounces per cubic yard) of substrate if growing media is more hydrophobic (difficult to wet).

PACKAGING

- 2 x 2.5 gallons (2 x 9.46 L) per case
- 55 gallon (205 L) drums
- 275 gallon (1000 L) minibulks
