

STRETTA™

IRRIGATION INJECTION SURFACTANT

CONTAINS NONPLANT FOOD INGREDIENTS

ACTIVE INGREDIENTS:

13.7% Cellulose, carboxymethyl ether, potassium salt

INERT INGREDIENTS:

86.3% glycerol and water

100.0% TOTAL

All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENTS

Causes eye irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Specific treatment is given in the First Aid section on this label or on the SDS.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or handlers of this product should wear protective eyewear, long sleeved shirt, long pants, socks, shoes and barrier laminate, neoprene rubber, nitrile rubber or Viton® gloves. Consult the SDS for further information.

FIRST AID

- If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give any fluids to an unconscious person.
- If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.
- If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention or advice.
- If On Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

LOT NUMBER: Located bottom side shoulder of container.

NET WEIGHT: 10.5 kg (9046 liters)

GENERAL INFORMATION

STRETTA is a unique plant-derived irrigation injection surfactant product with fertilizer compatibility that improves irrigation efficiency and enhances the growing environment for the targeted crop.

DIRECTIONS FOR USE

Always apply STRETTA in accordance with label instructions. Follow the application guidelines below.

METHOD OF APPLICATION

IRRIGATION INJECTION: Apply through an irrigation system utilizing drip tubes, tape, micro emitters or overhead sprinklers.

Do not apply STRETTA through earthen ditches. STRETTA is compatible with most commonly used fertilizer or other products such as ammonium or potassium thiosulfate, ammonium nitrate, urea solutions, UAN, and phosphate-based fertilizers such as 10-34-0. While compatible with most commonly used products, a jar test should be performed to ensure compatibility. Agitation is recommended as needed in fertigation tanks to ensure uniform injection of nutrients and STRETTA. Always use back-flow prevention when injecting STRETTA or other injectable products.

NOTICE: DO NOT MAKE A SPRAY APPLICATION OF STRETTA TO THE FOLIAGE OF ANNUAL OR PERENNIAL CROPS AS PLANT INJURY MAY OCCUR.

USE RATE

Initial Application: Apply STRETTA at the rate of 2 quarts per acre (4.68 liters per hectare).

Subsequent Applications: Apply STRETTA at the rate of 1 quart per acre (2.34 liters per hectare) or increase to meet the needs of the crop, based on environmental conditions.

APPLICATION INTERVAL

The general recommendation is for application of STRETTA on a 4-week cycle from crop establishment to harvest. The time between applications may vary by crop, soil type or crop response to environmental conditions. The use of a soil tensiometer or other means of moisture measurement is encouraged to determine the required irrigation interval.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE

Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated hereon and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the Company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product shall be the purchase price paid by the user or buyer for the product involved.
